Subject: Call for support: European Commission project on the access to health care for vulnerable & isolated individuals

Dear Mr. Simon Quaschnig,

We appreciate our participation in this project.

We would like to inform you that you can, of course, forward our contact information to your colleagues in Greece.

In order to be able to answer your question regarding the estimation of the number of surveys precisely, we would need a timeframe. In other words, how much time of the project's duration is foreseen for the completion of the surveys? The inhabitants of the village are about 7.500 and as association we know that less than 1/3 of its population has access to health care.

Furthermore, our association is in close contact with other NGO's and we often organize examinations and vaccinations for the inhabitants. Based on our experience the estimation we can give is 500 surveys (for the beginning) depending on the time frame.

We stay at your disposal for any further information you may require and we are looking forward to supporting you in this project.

Yours sincerely,

Suleiman Sampicha
