

To:

Ms. Mojgan Nosratollah ZARGAR,

Born: 13-09-1985, in Shahriar, Iran

From father, Nosratollah, mother, Narjees.

Address:

No.2, Ostad Sharhriyar Alley, Dehak, Safadasht,
Shariyar, Tehran. IRAN

FROM:

Sabiha SULEIMAN, President,
ROMA WOMENS ASSOCIATION DROSERO, GREECE

INVITATION

Dear Mojgan Zargar,

October 21, 2015

On behalves of the Drosero's Roma Women Association, I'm honored to invite you to Greece. Our main idea is to cooperate and implement project activities with you. We are sure that your presence and work would bring fruitful results to our community and society in general.

We are delighted to get to know about your decision to come to Greece and work on these very important matters in our Greek society. We will welcome you in next days and hope and very much hope you will bring to us your reach knowledge and experience on children, and especially on women education. We, also, thank you and appreciate for your strong desire to contribute to the Drosero's Roma Women's Association. We are convinced you will obtain new, additional knowledge from us in order to convey to Roma community not only in Europe.

Dear Ms. Zargar, we will provide to you all necessary conditions for accommodation, dining and lodging. You know about Greek and Roma hospitality!

From now on it is suitable time for the development of the activities that would mean that you are affiliated as new member of the Roma Women's Association in Drosero in Greece.

You are welcome!

Sabiha Suleiman, President

Roma Women's Association, Drosero, Greece

Additional explanation to the LETTER OF INVITATION TO MS. MOJGAN ZARGAR

I'm writing this part to be more precisely on what we will be actively working. Let me tell you, dear Mojgan Zargar, we will have during all the period of our common work as a main actor for the below activities Mr. Orhan Galjus, the top Roma activist in Europe and that will make us more reach and empowered to complete the tangible results.

The Plan

We agreed for the continuation of the work on local and public policies addressing Roma communities in Greece. Positive approach!

Further development of the activities and projects related to EC National Strategy on Roma in Greece. /here we have very good relation with Ms. Lina Chalilopolu, MEP, EC/ Helping/bringing Roma communities much more close than before space to make our people active citizens - to participate in mainstream society, and be agents of change on local, regional and national level in main fields as: education, employment, housing, health and media.

EDUCATION:

Continuation of the existing and designing new projects:

- Organizing activities with pre-school children, inclusion of parents and educational institutions. Alternative education /Waldorf, Steiner, Montessori pedagogy/ to be used
- Creative and visual arts activities
- Assistance to pupils and students
- To design scheme for a scholarship support for students

EMPLOYMENT:

Social and family business development projects: role model - business units /small scale/ to be used for promotion of traditional Romani craft, which are to be used for income generating projects.

MEDIA:

To organize internet or FM radio programs in Romani and Greek language on local level.

Such radio programs already exist in many European countries. We are very much able and ready to implement this idea. Such programs helped societies and Roma community fighting discrimination, promoting Romani culture and language as the best part of the Romani heritage and that is also the part of mainstream Greek society.

The Romani music will be the best promoter for such beginning. The radio will be part of existing Roma media networks in Europe. The future Roma radio is very good bridge to mainstream media.

Let me tell you that Mr. Galjus will be most responsible for those media issues - taking into account that that he is Chair of the European Broadcasting Union/Roma Task Force Group and long standing director of the Radio Patrino.

Dear Mojgan, I have chosen three essential topics for the Roma communities in Greece. I'm sure that our work will be well organized and I'm sure we will make tangible results. Having that we will be happy as well as Greek authorities and society will be proud to show to Europe modest and good practices and results.

Warmly,

Sabiha Suleiman, Roma Women's Associations, Drosero, Greece
